

For many Americans, Social Security Disability (SSD) and Supplemental Security Income (SSI) are a lifeline, the former providing monthly income to individuals living with a disability who previously worked and the latter serving individuals with limited income who are blind, living with disability, or 65+ years old.

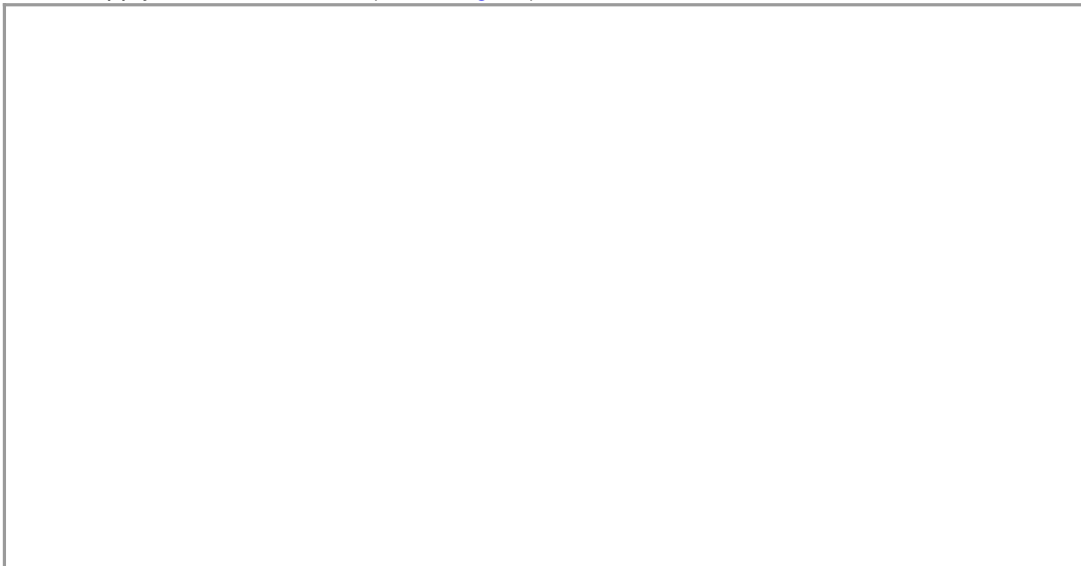

If you believe you qualify for SSD or SSI and need help applying or if your benefits were terminated, Legal Service NYC can help you navigate the Social Security Administration (SSA). **Call us at 917-661-4500 to see if you qualify for our services.**

You can also learn more about SSD and SSI by watching the below videos or reviewing the accompanying FAQs:
