

LSNYC's pro bono client service initiatives partner law firms, corporations, and bar associations with individual clients who have discreet needs. LSNYC provides training, supervision, and technical support, while pro bono partners take the lead on the cases. In addition to these initiatives, LSNYC also circulates a number of cases to law firms that could benefit from their expertise or resources, and are suitable for a one-time placement. **A listing of client service initiative practice areas can be found at right.**
